

# SRN-25™

## 25-00-00

### 25% Slow Release Nitrogen

#### GUARANTEED ANALYSIS

Total Nitrogen (N) . . . . . 25.00%  
 18.75% Urea Nitrogen  
 6.25% Other Water Soluble Nitrogen\*

Boron (B) . . . . . 0.50%

Derived From: Urea, Urea-Triazone and Boric Acid

\*6.25% Slowly Available Nitrogen from Urea-Triazone as determined by AOAC Method 2003.14

#### TECHNICAL DATA

Pounds Per Gallon: 10.4  
 Gallons Per Ton: 192.31  
 Pounds Nitrogen Per Gallon: 2.60  
 Pounds Boron Per Gallon: 0.052  
 Salting-Out Temperature, °F: <32

Note: Do not allow product to freeze. Store Above 32°F.

#### GENERAL INFORMATION

SRN-25 is an innovative foliar fertilizer that provides a slow release nitrogen source by combining urea and urea-triazone solutions. SRN-25 also provides a soluble source of Boron, an essential plant nutrient that aids in cell wall formation and is involved in regulation of starch and translocation of sugars and starches.

#### PRECAUTIONS

Use of this product in accordance with label directions is not expected to adversely affect normal vegetative and/or reproductive growth in most situations. SRN-25 is most effective when plants are growing rapidly and least effective when dormant or suffering from stress.

**Note:** This product contains Boron. Some crops or plants have shown sensitivity to Boron. Use of Boron on crops outside those recommended or beyond the suggested rates may result in severe plant injury. Always obtain specific Boron recommendations from your local agricultural authority.

Bulk

Item No: LB250000MN50

Lot No: Sample Label

#### GENERAL RECOMMENDATIONS

SRN-25 is designed for foliar application where the addition of boron, readily available nitrogen, and slow release nitrogen could be beneficial to vegetation. SRN-25 does not deliver all the nutrients that are considered essential to crop production and should be considered a supplement to a sound fertility program that incorporates realistic yield goals with other production variables such as soils, soil fertility, moisture, planting variables, crop condition and other environmental factors.

**FIELD CROPS:** (corn, soybeans, edible beans, sorghum, sugar cane and cotton) Apply 2 to 12 qts. per acre by ground. Apply 4 to 6 weeks after planting or when deficiency symptoms first appear. For aerial application, use 1 to 4 qts. per acre in a minimum of 5 gallons of water.

**VEGETABLE CROPS:** Apply 2 to 8 qts. per acre. Application should be made early in the growing season. This treatment should be repeated if crops continue to show deficiencies. Avoid spraying during bloom periods.

**ORCHARD CROPS:** (apples, pears, pecans, citrus) Apply 2 to 8 qts. per acre pre-bloom. Application after petal fall should be done only with local information as to not physically spot the fruit.

**GRAINS:** (wheat, oats, barley) Apply 2 to 8 qts. per acre in adequate water to assure thorough coverage. First application at tillering. Second application 14 to 21 days after application. For best results, spray when the crop is in an active state, after irrigation or rainfall.

**ORNAMENTALS:** Apply according to the Boron needs of the plant. If additional nitrogen is needed without the Boron, use SRN-25 Slow Release Nitrogen.

**TURF:** SRN-25 may be used on all turf grasses. Apply according to the amount of nitrogen desired by using the chart below.

**NOTE:** A lawn will typically utilize 1 to 4 lbs. of nitrogen per 1,000 sq. ft. each growing season. Use this product in conjunction with an additional fertilization program to provide at least 1 lb. of nitrogen per 1,000 sq. ft. each growing season. On centipede grass, do not apply with other fertilizers, pesticides or specialty products when temperatures can exceed 90°F.

#### RATE OF SRN-25 BY DESIRED NITROGEN

Desired Nitrogen	Application Rate Per Acre		Application Rate Per 1000 Sq. Ft.	
0.5 Lb(s).	8.38 Gallons	87.12 Lbs.	0.19 Gallons.	2 Lbs.
1.0 Lb(s).	16.75 Gallons	174.24 Lbs.	0.38 Gallons.	4 Lbs.
1.5 Lb(s).	25.13 Gallons	261.36 Lbs.	0.58 Gallons.	6 Lbs.

#### RATE OF SRN-25 FOR DIFFERING NITROGEN AMOUNTS

Application Spray (Rate Per 1000 Sq. Ft.)	Gallons of SRN-25 Required Per 100 Gallons of Spray Solution						
	.1 Lb. N	.2 Lb. N	.3 Lb. N	.4 Lb. N	.5 Lb. N	.75 Lb. N	1 Lb. N
1 Gallon	3.85	7.69	11.54	15.38	19.23	28.85	38.46
2 Gallons	1.92	3.85	5.77	7.69	9.62	14.42	19.23
3 Gallons	1.28	2.56	3.85	5.13	6.41	9.62	12.82
4 Gallons	0.96	1.92	2.88	3.85	4.81	7.21	9.62
5 Gallons	0.77	1.54	2.31	3.08	3.85	5.77	7.69

#### COMPATIBILITY

SRN-25 can be mixed with most pesticides when mixing is done in the following order: (1) 1/2 of the water (turn on circulation); (2) SRN-25; (3) flowable materials; and (4) wettable powders. Do not mix with phosphate based fertilizers or lower the pH. Always determine compatibility with other fertilizer and/or pesticides by use of jar test before tank mixing.

Use in accordance with recommendations of a qualified individual or institution such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

#### FIRST AID

Product users should wash thoroughly after using or handling this product. In case of **eye contact**, flush eyes with running water for at least 15 minutes. Get medical attention if irritation persists. In case of **skin contact**, wash from skin with soap and water. Keep out of cuts or open wounds. In case of **ingestion**, dilute with water or milk. If necessary, induce vomiting only when victim is conscious. Call a physician or Poison Control Center immediately in cases of suspected poisoning.

#### CAUTION: KEEP OUT OF REACH OF CHILDREN.

#### STORAGE, HANDLING AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **Storage** DO NOT ALLOW PRODUCT TO FREEZE, STORE ABOVE 32°F. Store out of direct sunlight in an area of moderate temperature. Do not store where children or animals may gain access. **Handling:** Avoid containers, piping or fittings made of copper-containing alloys or galvanized metal. **Container Disposal:** Dispose of empty containers by triple rinsing and discard empty containers in a landfill in accordance with current local, state, and federal regulations.

#### IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, the Warranty Disclaimer and Limitation of Liability before using this product. By using this product, user or buyer accepts the following Warranty Disclaimer and Limitation of Liability.

#### LIMITS OF WARRANTY: MEARS FERTILIZER, INC. and

seller warrant that this product conforms to the chemical description on the label and is reasonably fit for the purpose stated on such label only when used in accordance with the directions under normal use conditions. Except as specifically stated below, NO WARRANTIES, WHETHER EXPRESSED OR IMPLIED, ARE MADE WITH RESPECT TO THE PRODUCT OR ITS USE, AND NO AGENT OF THE MANUFACTURER OR OF THE SELLER IS AUTHORIZED TO DO SO.

Buyer and user of this product assume all responsibility for handling, storage and use not in accordance with directions. It is impossible to eliminate all risks inherently associated with the use of the product. Plant injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond manufacturer's and seller's control. In no case shall the manufacturer or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product.
